Racine R/C Club Meeting Minutes

May 18th, 2025

Time: 1:00 PM

Location: R/C Flying Field

Open Meeting - Jim opened the meeting at 1:00PM. 15 members were in attendance.

Welcome - New Members & Guests – There were no guests or new members.

Minutes - Last Meeting – No changes to the minutes.

Reports

President- Jim Litwin reported Joe Nall this year was a good time despite the rains they had during the week.

The Milwaukee RC Association is looking for a Swap Meet Coordinator.

Vice President- Roger Nickolaus had nothing to report.

Secretary/Treasurer- Bob Johnson reported our checkbook balance remains strong, and we are well positioned for any planned or unplanned club requirements.

Current membership as of this newsletter.

Senior Members	30
Open Members	8
Junior Members	0
Family	2
Total	40

Newsletter Editor-Dennis Vollrath was out of town.

Field Chairman- Trygve Smalley reminded club members that Saturday May 31st the shelter walls will be taken down. All members that can make it are encouraged to pitch in.

The club continues to look for members that can

sign up to mow the field.

Tractor Chairman- Eric Armantrout was out of town. The mower is not operational currently. The hydraulic blade motor is leaking oil. The blades are slipping due to oil on the belts that drive them. Eric will be exchanging the motor with the motor from parts left from the old mower.

Web Master- Ron Hayes had nothing to report.

Safety Officer- Darrell Hossalla had nothing new to report.

Compost Director- Steve Knackert reported that all is good at the compost site.

Old Business- None

New Business – Non

New Pilots – None

Show & Tell – None

Raffle Drawing – Steve Knackert won the May Raffle. Steve donated the entire \$16.00 to the club. Thank you Steve!!

Close Meeting – Jim closed the meeting with a reminder the next club meeting will be Sunday June 22nd at 1PM at the club house. This will be the 4th Sunday of the month due to Fathers Day.

JIM'S CORNER

The June club meeting has been moved to a week later due to Father's Day being on our regular meeting day. I hope you were able to enjoy some time with your family.

Flying has been a mixed bag. Usually sunny, but winds from different directions messing with landing. A few problems resulted. Also the Canadian wild fires have put a lot of smoke & ash in the sky making the visual situation somewhat difficult. I found myself squinting a lot even with sunglasses on.

The field is in great shape. It's been rolled again and the grass is being cut so field conditions are great, even for the smaller planes.

The shelter walls went down in record time. There was some preliminary work done, and Roger & Big Jim were out early knocking out some of the work, so removing panels and moving everything was the big task. Wish it went up as easy & as fast! A big thank you to everyone who came out to help.

The mower had been giving us some problems, but the hydraulic motor for the blades was replaced and a new belt installed and it's now cutting better.

An issue to be discussed at the upcoming June 22nd meeting is the decision as whether or not to hold the annual club picnic, and the allocation of funds. The picnic would be held in lieu of our monthly club meeting, on July 20th.

We should also be discussing whether to host another "Open House" in August. In August our monthly meeting is being held on August 17th, and the "Open House" would be held the following Sunday, August 24th.

We were advised that between Wednesday night, June 4th, and Saturday morning, June 7th, someone forced open the door at the compost site building, breaking the door and door frame. Unknown if anything taken. Nothing appears to have occurred at our site, **but it reaffirms that we need to insure we lock everything before leaving for the day, including the gates.** Our steel door and door frame may have prevented damage at our storage area.

It's not too early to start thinking about the future with our club. We will soon be taking proposed Field Rule & By-Law changes, and nominations for club officer positions. Start talking to your fellow club members; share what you might

want changed; maybe changes in the direction the club is going; changes you might want concerning the flying field. We are a club trying to provide a place for members to fly their RC airplanes. As mentioned above, our next meeting is

Sunday, June 22nd at the field. See you then.
Fly Safe & Have Fun
Jim Litwin
President

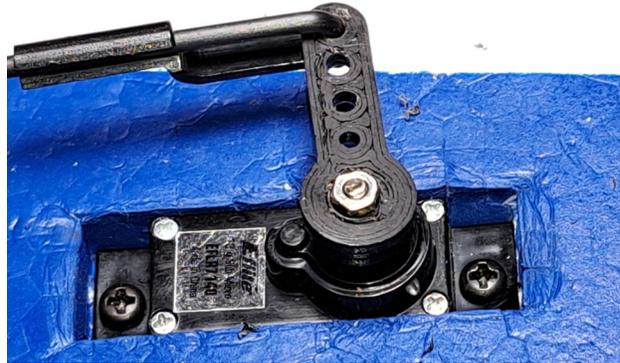

Dennys Stuff

Got a few things to cover this month. One of our club members obtained a "Foamie" model that had an issue with one of its Eflite servos. Seems its servo arm was slipping on the servos output shaft.

I took both wings home with the intent to install a couple of spare Hitec HS-82MG servos in the wing, but quickly found that even though they took the same size cut out in the wing, the bottom of the Hitec servos was a 1/4 inch longer than the mounts in the wings. Dang.

The Eflite servos also had a very small diameter metal gear shaft that no servos arms I had would match.

So, looking over the situation, and looking at my Creality K1 printer, why not try 3D printing a servo arm that would be a tight fit.

Didn't take long to draw up a new servo arm. And, after initializing, my K1 printer only took 95 seconds to print the new arm!

The photo at the right shows the result. I had to make a new #2 metric thread screw with a #2 nut to hold it in place.

(Amazon has several metric screw kits, One of mine has 2mm, 2.5mm, 3mm screws from 8mm to 20mm long.)

For those with nX10 and similar Spektrum transmitters, I've found a "Warning" feature listed under "System Setup" and "Warnings".

I've gone into the Warnings feature and programmed in "Throttle: Over 10%" and "Flight Mode" either position 1 or 3.

The flight mode in my nX10 transmitters concerns the "Gyro" function in the models Spektrum AR8360T receiver. I've programmed in a warning if the transmitter is turned on when the Gyro switch in the transmitter is in the wrong position. Same with the throttle.

There are a number of warnings that can be set up. If there is a warning present on transmitter power up, the transmitter will block flying your model until the switches are in the right position. .

I have a couple of videos that may be interesting to our RC club members. Starting with a posting in www.rcgroups.com on my Escapade model listed below:

[Giant 80 Inch Escapade Electric Conversion - RC Groups](#)

This model was purchased and flown in 2015, and is still flying today. The only maintenance has been replacing the 11S2P A123 battery pack, and a new wing and stab covering done this year by Roger N in our club.

If this isn't the first Escapade in our club, it would be one of the very early ones.

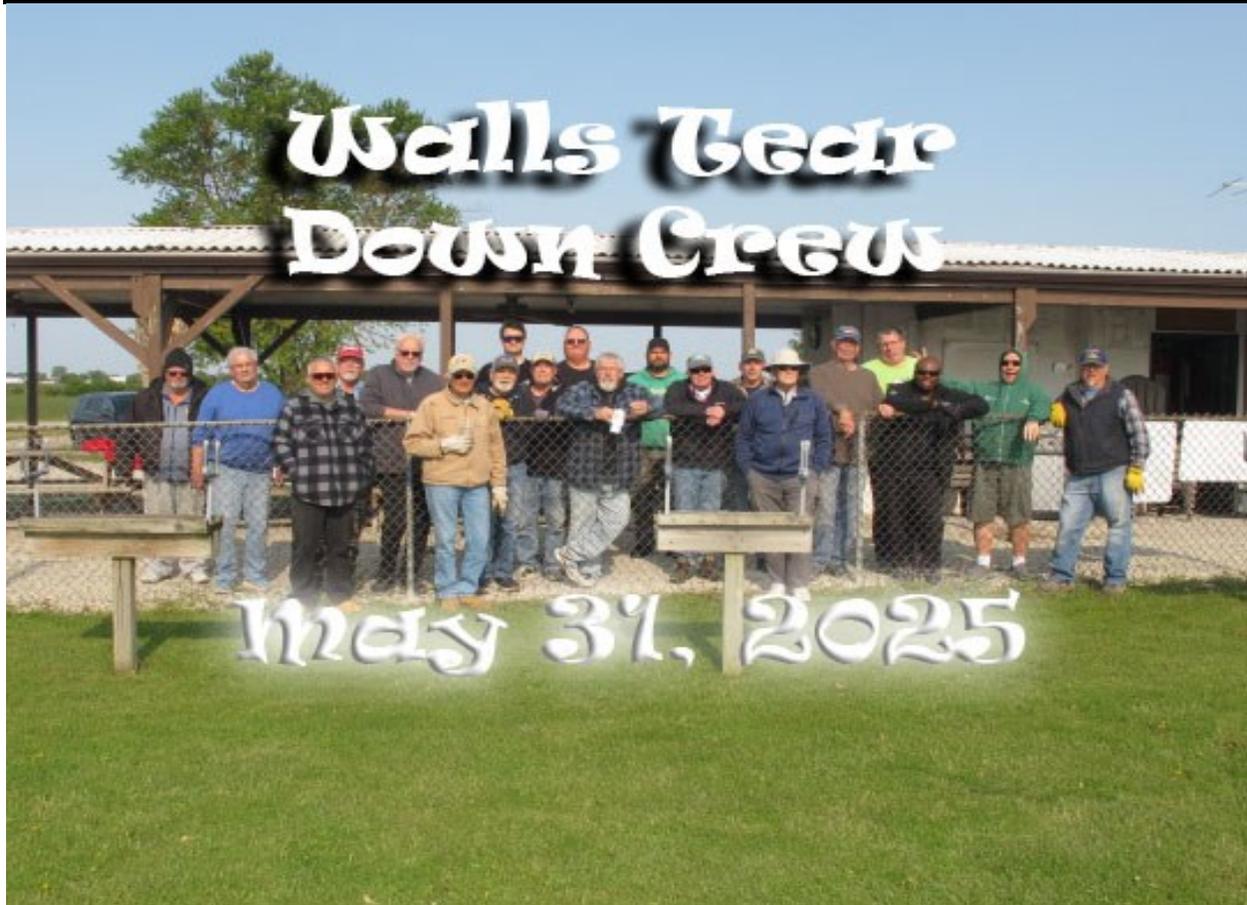

As many of the RRCC club members know, your editor did a lot of business trip traveling at work before retiring. A

number of the foreign trips were by the Boing 747's and the Airbus.

I've found a video taken by a passenger on a Boing 747 where the camera was aimed out the window to the wing of the 747. It always amazed me just how much the wing on those 747's flex during take off and landing. The wing tip must flex upward a good 10 feet on take off, and a similar amount on landing.

Microsoft will not allow posting a YouTube video link here due to security risks, so I will provide the link to the 747 video with the email sent to all club members. It's worth watching.

I've included a poster on the West Bend Sky Ranch Fliers for their fun fly June 21, 2025. This RC fly in will be a good time for all that attend.
